WORK EXPERIENCE

UI Designer — PixelCraft Studio

Mumbai, India | August 2024 – Present

- Designed responsive web and mobile interfaces for multiple client projects.
- Created wireframes, high-fidelity screens, and interactive prototypes using Figma.
- Developed reusable UI components and maintained design systems.
- Collaborated with developers to ensure accurate implementation of designs.

- Conducted usability testing and improved interfaces based on user feedback.
- Created landing pages, dashboards, mobile applications, and marketing websites.

UI/UX Design Intern — CreativeLabs

Mumbai, India | January 2024 – July 2024

- Assisted senior designers in creating web and mobile application interfaces.
 - Designed wireframes and user flows for new product features.
 - Created interactive prototypes using Figma.
 - Conducted competitor and visual design research.
 - Prepared design specifications and assets for developers.
-

PROJECTS

FinEase — Personal Finance Mobile App

Figma, UI Design, Prototyping

- Designed a mobile application for tracking expenses, budgets, and savings.
- Created user flows, wireframes, and high-fidelity screens.
- Developed a reusable design system with consistent components and typography.
- Created an interactive Figma prototype for usability testing.

TravelGo — Travel Booking Website

Figma, Responsive Web Design

- Designed a responsive travel booking platform for desktop and mobile.
- Created search, hotel listing, booking, and payment interfaces.
- Focused on simple navigation and clear visual hierarchy.

FitTrack — Fitness Dashboard

Figma, UI Design

- Designed a modern fitness dashboard for tracking workouts and progress.
 - Created charts, cards, navigation components, and progress indicators.
 - Developed reusable components to maintain consistency across the interface.
-

EDUCATION

Bachelor of Design — Interaction Design

Mumbai University | 2020 – 2024

CGPA: 8.6/10

CERTIFICATIONS

- Google UX Design Professional Certificate
