

Naina Sharma

AI Engineer

Mumbai, Maharashtra, India

naina.sharma@example.com | +91 98765 43210

LinkedIn: linkedin.com/in/nainasharma | GitHub: github.com/nainasharma

PROFESSIONAL SUMMARY

AI Engineer with 2+ years of experience in developing machine learning and artificial intelligence solutions. Skilled in Python, machine learning, deep learning, natural language processing, and data analysis. Experienced in building predictive models, deploying AI applications, and working with real-world datasets.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C++

Machine Learning: Scikit-learn, Regression, Classification, Clustering, Feature Engineering, Model Evaluation

Deep Learning: TensorFlow, PyTorch, Neural Networks, CNNs

AI / NLP: Natural Language Processing, Transformers, Text Classification, Sentiment Analysis

Data Science: Pandas, NumPy, Matplotlib, Data Cleaning, Exploratory Data Analysis

Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Databases: MySQL, PostgreSQL, MongoDB

Cloud: AWS, Google Cloud

WORK EXPERIENCE

AI Engineer — TechNova Solutions

Mumbai, India | July 2024 – Present

- Developed and optimized machine learning models for business prediction and automation.
- Built NLP-based systems for text classification and information extraction.
- Designed data preprocessing and feature engineering pipelines using Python.
- Improved model performance through hyperparameter tuning and cross-validation.
- Collaborated with software engineers to integrate AI models into web applications.
- Used Git and GitHub for version control and collaborative development.

Machine Learning Intern — DataMind Technologies

Mumbai, India | January 2024 – June 2024

- Prepared and cleaned structured datasets for machine learning projects.
 - Developed classification and regression models using Scikit-learn.
 - Performed exploratory data analysis using Pandas and Matplotlib.
 - Evaluated models using accuracy, precision, recall, F1-score, and cross-validation.
 - Assisted in developing a customer sentiment analysis system.
-

PROJECTS

AI-Powered Resume Screening System

Python, Scikit-learn, NLP, PostgreSQL

- Developed a system that analyzes resumes and compares candidate skills with job requirements.
- Implemented text preprocessing and skill extraction.
- Created a candidate ranking mechanism based on skill similarity.
- Stored candidate and job information using PostgreSQL.

Customer Sentiment Analysis

Python, NLP, TensorFlow

- Built a sentiment classification model to categorize customer reviews as positive, negative, or neutral.
- Performed text preprocessing, tokenization, and feature extraction.
- Trained and evaluated machine learning and deep learning models.

Flight Price Prediction

Python, Pandas, Scikit-learn

- Developed machine learning models to predict flight prices.
- Performed data cleaning, exploratory analysis, feature engineering, and model evaluation.
- Compared multiple regression algorithms to identify the best-performing model.

EDUCATION

Bachelor of Technology — Artificial Intelligence & Data Science

University of Mumbai | 2020 – 2024

CGPA: 8.7/10

CERTIFICATIONS

- Machine Learning Specialization
 - Deep Learning Fundamentals
 - Python for Data Science
 - AWS Cloud Practitioner
-

ACHIEVEMENTS

- Finalist in a national-level AI hackathon.
 - Published a college research paper on machine learning applications.
 - Conducted a workshop on Introduction to Artificial Intelligence for undergraduate students.
-

SOFT SKILLS

Problem Solving • Analytical Thinking • Team Collaboration • Communication • Research • Time Management
